I am Your Baby And I need you Badly

Please look at me carefully the next time you see me.

Please notice that I am so small and need so much.

Please listen to me carefully the next time you see me.

Please notice that I don't know much.

Like you I was born helpless. And growing up so I can
take care of myself will take me a long time too.

I need food.

I need rest.

I need to be kept clean.

I need to be kept warm in winter and cool in summer.

I need to be taken in your arms or sat on your lap.

I need to feel your skin against my skin.

I need you to heal my hurts.

I need you to play with just so you and I can have some good
times together.

I need you to teach me everything you can so I'll have a chance
in this world when I grow up.

I need your patience. I know I'm not very orderly. I cry out for
things like food and attention the second I need them. I can't
help it and I know that bothers you sometimes. All I can hope is
that you will be patient with me until I can learn to be patient, too.

Above all, I need to know you love me so I can give a little love
to my children and they can give a little to their children.

I need so much from you, yet I have only one thing I can give
you in return.

That is my Love.

today and tomorrow and forever.

St. Joseph's, Macomb County's first and largest hospital, provides the community with a network of services that meet the total health care needs of the family, from newborns to the elderly.

With 487 acute care beds, fully accredited by the Joint Commission on Accreditation of Hospitals, St. Joseph's offers complete health care at two locations: 15855 19 Mile Road (between Hayes and Garfield) in Clinton Township and 215 North Avenue in Mt. Clemens.

Over 300 physicians representing 23 medical specialties are members of the St. Joseph's medical staff.

The Hospitals provide 24-hour Emergency/Trauma Services as well as 24-hour physician coverage; inpatient mental health services; a discharge planning program to include complete home care preparation; and individualized patient teaching.

The East Site near downtown Mt. Clements, offers patients improved services in a virtually "new" patient care facility equipped with up-to-date diagnostic and therapeutic technology.

The West Site built in 1975 is also equipped with state-of-the-art technology including radiology, ultrasound, nuclear medicine and CT scanner facilities.

In its constant effort to remain the community's greatest resource for health care, St. Joseph's has three Family Care Centers offering "close to home" service by a medical doctor. Patients can select a doctor of their choice, make appointments within 24 hours, receive follow-up care, and have access to round-the-clock, on-call service.

St. Joseph's offers inpatient detoxification, intensified outpatient treatment and out patient counseling for persons with drug or alcohol-related problems. It is also the first facility in Macomb County to establish outpatient mental health services.

In November of 1986 St. Joseph's will open a free-standing Ambulatory Surgery Center, the first of its kind in the County. This outpatient facility will provide a less costly alternative to hospitalization for specific surgical procedures.
